👤 PROFESSIONAL SUMMARY

Data Engineer with 3 years of experience building scalable ETL pipelines using PySpark, Databricks, and SQL. Skilled in data validation, automation, and workflow orchestration using Airflow. Experienced in transforming large datasets into reliable data models to support analytics and reporting. Currently expanding expertise in real-time data streaming using Kafka and modern data architecture (Bronze–Silver–Gold).

🏢 EXPERIENCE

Data Process Analyst, Indivillage Tech solutions LLP 12/2022 – 01/2025

- Analyzed large structured datasets using Python and SQL to generate actionable insights for business decision-making
- Developed and maintained ETL pipelines in Databricks, improving data processing efficiency and scalability
- Implemented automated data validation and cleaning scripts, improving data quality by ~30% and reducing manual errors
- Collaborated with cross-functional teams to streamline reporting workflows, reducing turnaround time by ~25%
- Built interactive dashboards using Power BI and Excel, enhancing reporting efficiency and data visibility

🎓 EDUCATION

JNTUA, B.Tech 2022
65.43

SBTET, Diploma 2018
62

BSEAP, SSC 2015
9.2. GPA

🧠 SKILLS

Languages
Python, SQL

Big data & Processing
Databricks, PySpark

Visualization
Power BI, Advanced Excel

Data Modelling
ETL Pipelines, Data Validation, Data Cleaning

Automation & Orchestration
n8n, Airflow

Tools
Google Workspace, Microsoft Teams

Streaming
Apache Kafka

📁 PROJECTS

Real-Time Data Pipeline (Kafka + PySpark + Databricks)

- Designed a real-time data streaming pipeline using Kafka for ingestion and PySpark for processing
- Processed streaming data and stored it in Delta tables on Databricks
- Implemented basic data validation and transformation logic for real-time analytics

Batch Data Pipeline (Airflow + SQL + Databricks)

- Airflow for orchestration and SQL for transformations
- Designed DAGs to automate data ingestion, transformation, and loading processes
- Ensured data reliability with scheduled workflows and monitoring

📜 CERTIFICATIONS

- Python programming - Udemy
- Databricks Certified Training - Udemy
- Gen AI - Udemy

🔧 INTERESTS

- Production Optimization
- Research & Development in AI & Data Science
- Monitoring & Automation services

🔗 STRENGTHS

Problem solving

Debugging Data Pipelines

Data Quality Optimization
